Pai Kane Group: The Pai Kane Group is a reputed Indian group of companies, headquartered in Goa, the scenic little state on the west coast of India. We manufacture impeccable engineering products and provide world-class services to them through AMCs in 76 countries, spread across continents and sectors. With a dedicated spares vertical we are there to support your products through its life cycle.

Over the last 3 decades, the group has manufactured

- Diesel & Gas Gensets ■ Electrical Switchboards ■ Compact Substations,
- Aluminium architectural products to European standards ■ Composite Material Products (FRP)
- World-class acoustic enclosures using our Japanese sheet bashing machines,
- 11 tank treatment process and robotic powder-coating,

We are also Contract Manufacturers for various global companies. With in-house design-to-dispatch capabilities, we undertake single-point, turnkey electrical EPC contracts.

Touching Lives
